August 12, 2016

Dear Faculty, Staff, and Parents:

The Asbestos Hazard Emergency Response Act (AHERA) requires our school to notify the faculty, staff, and parents of the presence and status of asbestos containing materials in our school buildings. The law further requires a management plan based upon the findings of the initial inspection.

We have conducted the required six months surveillance in June, 2016 and will be completing the next surveillance in December, 2016.

The results of the recently completed surveillance indicate there are no changes in the condition of the asbestos containing materials in our school buildings.

A copy of the inspection report and Asbestos Management Plan is available for your viewing in our school office or at the Environmental Services Unit of the DOE. Please contact Mr. Gary Bignami at 377-8301 for additional information.

Sincerely,

Laura Vines
Principal
